

That NEW car you were admiring yesterday... is a USED car today...

Yet in appearance and performance it is essentially the same. At first glimpse you fell in love with that car, entranced by its long, lithe, graceful lines—its smooth, quiet, yet powerful motor.

Perhaps we have that very car on display among our great stock of Better Used Cars. With a \$10,000.00 stock we may have just the car you have been looking for, and can give you better values and better terms than you could get from some stranger elsewhere.

Before you buy any car, new or used, at any price, come in and see Walter G. Linch, who will personally give his efforts to satisfy you.
